JUST DO IT! GET-OUT-THE-VOTE NOW!

Greetings!

It's still not too late to pursue *Neighborhood Organizing*, even though *Early Voting* has started in many states and *Election Day* is a little over one week away. We need to mobilize as many like-minded voters as possible to send Washington a message that "*We the People*" have been awakened and are a force to be reckoned with. As described in this newsletter, *Neighborhood Organizing* is quite easy and can be pursued by anyone.

You might have seen in the news that the Public Employees Union is now the biggest outside spender in the 2010 election, eclipsing the Chamber of Commerce, AFL-CIO, and all outside groups supportive of Republican candidates. This group is spending money on television advertisements, phone calls, campaign mailings, and to help with the Get-Out-The-Vote ground game. In essence, these unions are campaigning to elect their government bosses, who in turn will reward them richly with your tax dollars. What a deal! Net, we cannot let up and, indeed, must intensify our Get-Out-The-Vote efforts!

If you are not able to pursue *Neighborhood Organizing*, maybe you can help by making *Get-Out-The-Vote* phone calls right from your home - see discussion below. We have also become aware of a simple method of detecting voter fraud which we wanted to share with you in this newsletter.

Get-Out-The-Vote Step-by-Step Instructions

Any individual can and should Get-Out-The-Vote NOW in their neighborhood. All you need is a Walking List of targeted voters, a [script](#), [door-hangers](#), and volunteers. We created [step-by-step instructions](#) to help you get started. (If you live in Ohio, just go to [Numus.com/precincts](#) and you will instantly have your precinct's Walking List - use the "Basic List" and focus on Independents and "sometimes-vote" Republicans.) National and local Ohio feedback confirms this process works!

We recognize that many are apprehensive about going door-to-door. Unlike what you might think, the experience is quite pleasant and satisfying since you are not selling anything. Instead, you are only asked to contact targeted voters, who are most likely like-minded based on Voting Records, to encourage them to vote. In the rare event you encounter a voter who is not like-minded, you simply apologize for having bothered them, wish them a good day, and leave.

Remember, individually voting and encouraging others to vote via Get-Out-The-Vote efforts is the only non-violent thing you can do to tangibly affect government! If you are still apprehensive, we encourage you to carefully read Winston Churchill's quote on the side-bar.

Get-Out-The-Vote Phone-Banking from Home

If you are unable to help with Get-Out-The-Vote canvassing or local volunteer phone banking efforts, we encourage you to help with Get-Out-The-Vote phone banking from the comforts of your home.

Many like-minded Tea Parties and 9/12 Project members participated in these internet accessible phone banks to help Scott Brown win his Senate seat in Massachusetts, i.e. with much out-of-state phone banking support.

Just click on either of the [links](#) below to access the phone banking capabilities for these national, conservative organizations.

may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than to live as slaves." - Winston Churchill

"You and I have a rendezvous with destiny. We can preserve for our children this, the last best hope of man on earth, or we can sentence them to take the first step into a thousand years of darkness. If we fail, at least let our children and our children's children say of us we justified our brief moment here. We did all that could be done." - Ronald Reagan

"But a Constitution of Government once changed from Freedom, can never be restored. Liberty, once lost, is lost forever." - John Adams

Simple Voter Fraud Detection Method

Voter fraud is a serious issue and much documentation exists that it occurs. Lyndon Johnson was a master of it in Texas, as was the Daley Machine in Chicago. We document issues with Ohio voting in 2008 on our [web site](#).

We recently became aware of a simple method that we can all pursue to start attacking this problem. It is quite simple and was identified by [True-the-Vote](#), an organization dedicated to eliminating voter fraud.

Simply stated, just access the most recent Voter Records (readily available from County Board of Elections or Secretary of State web sites) for your county and look for addresses with more than six votes per address. Also look for strange address names. [True-the-Vote](#) used this method for Harris County, Texas and found addresses, each with hundreds of registered voters. They also found voters whose home address was a *Jack In The Box* food outlet.

When you identify voter integrity issues, present the evidence to your local County Board of Elections, as well as to the District Attorney's office.

We need to make voter fraud elimination a major strategic plank for our "We The People" movement!
